This remarkable book...On Death and Dying, can help us face, professionally and personally, the end of life. "The Chicago seminar has vanquished the conspiracy of silence that once shrouded the hospital's terminal wards. It has brought death out of the darkness. In so doing, it has shown how, and with what quiet grace, the human spirit composes itself for extinction. Dr. Ross projects her warm understanding, sophistication, and sensitivity into every page...an excellent book on the management of the terminally ill...offers hope for the understanding of human strengths and weaknesses experienced during a very difficult time. I hope a great many will read this book...it does offer insight and understanding so that all those who have contact with terminally ill can do more to help them.
