## Making Sense in Geography and Environmental Sciences: A Student's Guide to Research and Writing

Margot Northey, Dianne Draper, David B. Knight

The *Making Sense* series offers clear, concise guides to research and writing for students at all levels of undergraduate study. Designed especially for students in geography and the environmental sciences, this volume outlines general principles of style, grammar, and punctuation while also covering issues such as how to conduct academic research in geography and the environmental sciences, how to write essays and reports, how to document sources, and how to give an oral presentation.

Revisions to the sixth edition of *Making Sense in Geography and Environmental Sciences* include a new section on thinking critically and coverage of new developments in technology-based research and writing. Summaries have been added to the end of chapters to improve student comprehension of material and references, and dates and examples have been updated throughout the text. Finally, the chapter on CSE, APA, and MLA style has been revised to be completely up to date.
