Boundary Behavior of Holomorphic Functions of Several Complex Variables. (MN-11): (Mathematical Notes) Elias M. Stein

This book has as its subject the boundary value theory of holomorphic functions in several complex variables, a topic that is just now coming to the forefront of mathematical analysis. For one variable, the topic is classical and rather well understood. In several variables, the necessary understanding of holomorphic functions via partial differential equations has a recent origin, and Professor Stein's book, which emphasizes the potential-theoretic aspects of the boundary value problem, should become the standard work in the field.

Originally published in 1972.

The **Princeton Legacy Library** uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These paperback editions preserve the original texts of these important books while presenting them in durable paperback editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

From reader reviews:

Doris Anderson:

With other case, little men and women like to read book Boundary Behavior of Holomorphic Functions of Several Complex Variables. (MN-11): (Mathematical Notes). You can choose the best book if you like reading a book. Given that we know about how is important some sort of book Boundary Behavior of Holomorphic Functions of Several Complex Variables. (MN-11): (Mathematical Notes). You can add knowledge and of course you can around the world by way of a book. Absolutely right, due to the fact from book you can recognize everything! From your country till foreign or abroad you will find yourself known. About simple factor until wonderful thing you could know that. In this era, we can easily open a book or maybe searching by internet product. It is called e-book. You may use it when you feel weary to go to the library. Let's read.

Jamie Hernandez:

Are you kind of hectic person, only have 10 or even 15 minute in your moment to upgrading your mind skill or thinking skill actually analytical thinking? Then you are receiving problem with the book than can satisfy your short time to read it because all of this time you only find reserve that need more time to be read. Boundary Behavior of Holomorphic Functions of Several Complex Variables. (MN-11): (Mathematical Notes) can be your answer as it can be read by you who have those short free time problems.

Sharon Grace:

A lot of book has printed but it differs. You can get it by web on social media. You can choose the most beneficial book for you, science, witty, novel, or whatever by searching from it. It is named of book Boundary Behavior of Holomorphic Functions of Several Complex Variables. (MN-11): (Mathematical Notes). You'll be able to your knowledge by it. Without leaving behind the printed book, it can add your knowledge and make an individual happier to read. It is most significant that, you must aware about book. It can bring you from one spot to other place.

James Jackson:

Some individuals said that they feel bored when they reading a guide. They are directly felt the idea when they get a half parts of the book. You can choose the particular book Boundary Behavior of Holomorphic Functions of Several Complex Variables. (MN-11): (Mathematical Notes) to make your own reading is interesting. Your own skill of reading proficiency is developing when you including reading. Try to choose very simple book to make you enjoy to read it and mingle the impression about book and reading through especially. It is to be 1st opinion for you to like to available a book and study it. Beside that the book Boundary Behavior of Holomorphic Functions of Several Complex Variables. (MN-11): (Mathematical Notes) can to be a newly purchased friend when you're feel alone and confuse in what must you're doing of this time.
