Australian Mammals: Biology and Captive Management

Stephen Jackson

Australian Mammals: Biology and Captive Management Stephen Jackson

Winner of the 2004 Whitley Medal.

Shortlisted in the Scholarly Reference section of the 2004 Australian Awards for Excellence in Educational Publishing.

This authoritative volume represents a complete and comprehensive guide to the husbandry of Australian marsupials and other mammals. *Australian Mammals: Biology and Captive Management* dedicates a chapter to each group of animals including the platypus, the echidna, carnivorous marsupials, numbats, bandicoots and bilbies, koalas, wombats, possums and gliders, macropods, bats, rodents and the dingo.

For each animal group the following information is covered: Taxonomy; Housing Requirements; General Husbandry; Feeding Requirements; Handling and Transport; Health requirements; Behavior; Breeding; and Artificial Rearing.

The book provides a complete literature review of all known information on the biology of each group of animals and brings information on their biology in the wild into captive situations. Also, for the first time, it provides practical guidelines for hand-rearing, and has been extensively reviewed by zookeepers and veterinarians to incorporate the most up-to-date information and techniques.

Australian Mammals: Biology and Captive Management provides practical guidance for zoo-keepers, veterinarians, zoologists, researchers and students.
