Auger- and X-Ray Photoelectron Spectroscopy in Materials Science: A User-Oriented Guide (Springer Series in Surface Sciences)

Siegfried Hofmann

Auger- and X-Ray Photoelectron Spectroscopy in Materials Science: A User-Oriented Guide (Springer Series in Surface Sciences) Siegfried Hofmann

To anyone who is interested in surface chemical analysis of materials on the nanometer scale, this book is prepared to give appropriate information. Based on typical application examples in materials science, a concise approach to all aspects of quantitative analysis of surfaces and thin films with AES and XPS is provided. Starting from basic principles which are step by step developed into practically useful equations, extensive guidance is given to graduate students as well as to experienced researchers. Key chapters are those on quantitative surface analysis and on quantitative depth profiling, including recent developments in topics such as surface excitation parameter and backscattering correction factor. Basic relations are derived for emission and excitation angle dependencies in the analysis of bulk material and of fractional nano-layer structures, and for both smooth and rough surfaces. It is shown how to optimize the analytical strategy, signal-to-noise ratio, certainty and detection limit. Worked examples for quantification of alloys and of layer structures in practical cases (e.g. contamination, evaporation, segregation and oxidation) are used to critically review different approaches to quantification with respect to average matrix correction factors and matrix relative sensitivity factors. State-of-the-art issues in quantitative, destructive and non-destructive depth profiling are discussed with emphasis on sputter depth profiling and on angle resolved XPS and AES. Taking into account preferential sputtering and electron backscattering corrections, an introduction to the mixing-roughness-information depth (MRI) model and its extensions is presented.

From reader reviews:

Michael Gibson:

With other case, little folks like to read book Auger- and X-Ray Photoelectron Spectroscopy in Materials Science: A User-Oriented Guide (Springer Series in Surface Sciences). You can choose the best book if you like reading a book. Providing we know about how is important any book Auger- and X-Ray Photoelectron Spectroscopy in Materials Science: A User-Oriented Guide (Springer Series in Surface Sciences). You can add know-how and of course you can around the world by a book. Absolutely right, mainly because from book you can understand everything! From your country until eventually foreign or abroad you will be known. About simple matter until wonderful thing you may know that. In this era, we are able to open a book or even searching by internet gadget. It is called e-book. You can utilize it when you feel bored to go to the library. Let's learn.

Teddy Hathorn:

Playing with family within a park, coming to see the water world or hanging out with close friends is thing that usually you have done when you have spare time, subsequently why you don't try factor that really opposite from that. 1 activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition of knowledge. Even you love Auger- and X-Ray Photoelectron Spectroscopy in Materials Science: A User-Oriented Guide (Springer Series in Surface Sciences), you may enjoy both. It is great combination right, you still want to miss it? What kind of hang type is it? Oh can happen its mind hangout people. What? Still don't have it, oh come on its identified as reading friends.

Jim Martin:

Do you like reading a guide? Confuse to looking for your selected book? Or your book had been rare? Why so many problem for the book? But any people feel that they enjoy with regard to reading. Some people likes reading through, not only science book but novel and Auger- and X-Ray Photoelectron Spectroscopy in Materials Science: A User-Oriented Guide (Springer Series in Surface Sciences) or perhaps others sources were given expertise for you. After you know how the good a book, you feel desire to read more and more. Science reserve was created for teacher as well as students especially. Those guides are helping them to put their knowledge. In various other case, beside science e-book, any other book likes Auger- and X-Ray Photoelectron Spectroscopy in Materials Science: A User-Oriented Guide (Springer Series in Surface Sciences) to make your spare time far more colorful. Many types of book like here.

Elizabeth Jamerson:

A lot of people said that they feel uninterested when they reading a reserve. They are directly felt that when they get a half portions of the book. You can choose the actual book Auger- and X-Ray Photoelectron Spectroscopy in Materials Science: A User-Oriented Guide (Springer Series in Surface Sciences) to make your personal reading is interesting. Your personal skill of reading talent is developing when you including

reading. Try to choose easy book to make you enjoy to see it and mingle the sensation about book and reading especially. It is to be 1st opinion for you to like to open up a book and read it. Beside that the book Auger- and X-Ray Photoelectron Spectroscopy in Materials Science: A User-Oriented Guide (Springer Series in Surface Sciences) can to be your friend when you're experience alone and confuse with the information must you're doing of the time.
