Gender and the Social Gospel Wendy J. Deichmann Edwards, Carolyn De Swarte Gifford

This collection of essays examines the central, yet often overlooked, role played by women in the formation of the social gospel movement in the late nineteenth and early twentieth centuries. A practical theological response to the stark realities of poverty and injustice prevalent in turn-of-the-century America, the social gospel movement sought to apply the teachings of Jesus and the message of Christian salvation to society by striving to improve the lives of the impoverished and the disenfranchised. The contributors to this volume set out to broaden our understanding of this radical movement by examining the lives of some of its passionate and vibrant female participants and the ways in which their involvement expanded and enriched the scope of its activity. and the Social Gospel contain broader analyses of the gender and racial issues that have caused the histories of movements such as the social gospel to be viewed almost exclusively in terms of their male, European-American, intellectual participants at the expense of the women, African Americans, and Canadians whose contributions were just as worthy of attention.
