The Unreal Universe: A Study in Applied Spirituality Manoj Thulasidas

The Unreal Universe is an inquiry into the realness of reality as reflected in the basic assumptions of physics. It examines these assumptions using metaphysical views of reality. Many schools of philosophy view our perceptual reality as a limited projection of a larger truth into our sensory or cognitive space. A similar view is now echoed in modern neuroscience. This philosophical insight rediscovered in the context of physics forms the backbone of this book.

More than a philosophical inquiry, *The Unreal Universe*. actually applies these views in explaining certain astrophysical phenomena such as Gamma-ray bursts and symmetric radio sources. This explanation appears in June 2007 issue of **IJMP-D** (a well-respected, peer-reviewed physics journal) as an article titled, "Are Radio Sources and Gamma Ray Bursts Luminous Booms?", which soon became one of the top accessed articles of **IJMP-D** by Jan 2008.

The Author

Dr. Manoj Thulasidas is a physicist from **CERN**. In the last few years, he studied the workings of the brain, focusing his attention on **Brain Machine Interface** and neural signal acquisition and processing. The insights gleaned during his professional research career, coupled with his philosophical bend of mind, form the inspiration and the thesis of *The Unreal Universe*.

Praise for *The Unreal Universe*

"Peppered with quotes by great thinkers, from Friedrich Nietzsche to Woody Allen, this book is for anyone who has wanted to learn about (to borrow a phrase from Douglas Adams) life, the universe and everything."
--**The Straits Times**, the national newspaper of Singapore

"Well written, very clear to follow for the nonspecialist."
--**Wendy Lochner**, Senior Editor, Columbia University Press

"A book for thinking laymen, this readable, thought-provoking work offers a new perspective on our definition of reality."
--**Bobbie Christmas**, Book Doctor, Zebra Communications

"This work should be required reading to anyone embarking on a new scientific journey."
--**Steven Bryant**, Vice President, Primitive Logic

Table of Contents

- Preface
- Introduction
- 1. Mother of Sciences
- 2. Nature of Time
- 3. Unreal Space
- 4. Pillars of Reality
- 5. Philosophy of Reality
- 6. Physics Primer

7. Why the Speed of Light?
 8. Perception and Special Relativity
 9. Beyond Special Relativity..
 10. Last Words
 11. Random Thoughts
- Appendix (Physics details)
 - Bibliography
 - Index

From reader reviews:

Mary Torres:

The book *The Unreal Universe: A Study in Applied Spirituality* can give more knowledge and also the precise product information about everything you want. So just why must we leave the best thing like a book *The Unreal Universe: A Study in Applied Spirituality*? Wide variety you have a different opinion about book. But one aim this book can give many facts for us. It is absolutely correct. Right now, try to closer with your book. Knowledge or info that you take for that, you could give for each other; you may share all of these. Book *The Unreal Universe: A Study in Applied Spirituality* has simple shape nevertheless, you know: it has great and massive function for you. You can appear the enormous world by open and read a book. So it is very wonderful.

Joan Burton:

With this era which is the greater person or who has ability in doing something more are more treasured than other. Do you want to become one among it? It is just simple approach to have that. What you have to do is just spending your time not much but quite enough to possess a look at some books. One of the books in the top list in your reading list is definitely *The Unreal Universe: A Study in Applied Spirituality*. This book which can be qualified as *The Hungry Hillside* can get you closer in becoming precious person. By looking upward and review this publication you can get many advantages.

Joey Mendoza:

That publication can make you to feel relax. This particular book *The Unreal Universe: A Study in Applied Spirituality* was bright colored and of course has pictures on there. As we know that book *The Unreal Universe: A Study in Applied Spirituality* has many kinds or style. Start from kids until teens. For example *Naruto* or *Private eye Conan* you can read and believe that you are the character on there. Therefore, not at all of book are generally make you bored, any it offers you feel happy, fun and rest. Try to choose the best book for you personally and try to like reading this.

Brenda Luna:

A lot of guide has printed but it differs from the others. You can get it by web on social media. You can choose the best book for you, science, witty, novel, or whatever by simply searching from it. It is called of book *The Unreal Universe: A Study in Applied Spirituality*. You can contribute your knowledge by it. Without making the printed book, it may add your knowledge and make you happier to read. It is most critical that, you must aware about reserve. It can bring you from one destination to other place.
